

The Niederanven Braderie – A celebration for residents, associations, and businesses

Some might claim that the Commune of Niederanven doesn't have a traditional village center. Yet there is a place within the Commune that creates this feeling: the complex "Am Sand" with its shopping center "Les Arcades Niederanven". Strategically located on Route de Trèves, everyone passes by here on their way to school, to the Syrdall Schwemm pool, the CIPA "Gréngewald," or even the Centre de Loisirs "Am Sand."

Driving down the street toward the Arcades, the attractive architecture of the shopping center is immediately apparent. Unlike classic, enclosed shopping malls, the Arcades were designed as an open center where all stores are directly accessible from outside. This concept enables short distances, a pleasant shopping experience, and a harmonious integration into the townscape of the Commune.

The Arcades' offerings are characterized by variety and quality, covering both daily purchases and more specific needs. Visitors will find a large supermarket for weekly shopping, a bakery, a butcher, an optician, a jeweler, a newsstand, a children's shop, a LEGO specialty store, and a children's library. The range is rounded out by a dry cleaner, a travel agency, a real estate agency, an insurance company, and technical services such as an electrician. An analysis laboratory, a hairdresser, and several beauty institutes ensure medical and aesthetic well-being.

"Even though we have a lively business scene throughout the Commune, the Arcades are still the commercial center of our Commune. And they are also an important element for social cohesion in our Commune. A meeting place, whether to have a cup of coffee together or simply to mingle with others alongside the weekly shop".

- Jacques Bauer, responsible alderman for the economy, businesses, Horeca, and tourism in the Commune

Finally, the local Chinese restaurant on the first floor of the Arcades invites you to enjoy a pleasant moment with delicious food. Soon a flower shop will be opening, further enhancing the appeal of the location.

And here, in the Arcades parking lot, all businesses and shops invite you to the next edition of the Niederanven Braderie on 25 April 2026.

The Niederanven Braderie is the result of collaboration between the Commune, local businesses, and associations. Born from the idea of creating an event that would showcase the Commune's businesses and promote local commerce, the Niederanven Braderie was launched in 2023. In addition, the Board of Aldermen has been actively committed from the start to supporting businesses and strengthening the local business Commune. Thus, the decision to organize a Braderie in Niederanven was quickly made.

Why is a braderie so important? For the Commune, the braderie is a place where residents can meet – a celebration for the whole family and an opportunity to highlight the value of local trade. The braderie gives businesses the opportunity to showcase their goods on a specific day of the year and network with other businesspeople to attract as many visitors as possible. And for visitors, whether they come from the Commune or from outside, it is a great opportunity to get to know the shops, pick up a bargain or two and, above all, enjoy a wonderful day out.

"Since the local businesses, together with the municipality, launched the Braderie in 2023, I have sensed a new enthusiasm among the shopkeepers. I'm looking forward to the third edition, and visitors can expect another fantastic day with truly great offers!"

- Jacques Bauer, responsible alderman for the economy, businesses, Horeca, and tourism in the Commune

But the Niederanven Braderie is much more than just a day for shopping. Many local associations from the Commune also participate with their stands—a great opportunity to recruit new members, present their work, and strengthen volunteerism. Alongside the business stands, they provide entertainment and games for young and old—and, of course, food and drinks!

The shops open their doors early in the morning and start setting up their stands. Those who arrive early to secure the best deals can treat themselves to a cup of coffee or a pastry at the bakery. But even before midday, local associations are already treating you to drinks and food. Until late afternoon, entertainment, music, good vibes, little surprises, and the chance to rediscover the diversity of the Arcades in a whole new way await you!

See you on Saturday, 25 April 2026, at the Niederanven Braderie!
